This one-page typewritten [] report furnishes the following information on exports of the Otto-Gruson plant, *Magdeburg*:

The plant is engaged in manufacturing drilling machinery under an export order for Hungary. As far as can be ascertained the actual purchaser is the USSR. A total of 300 ~~drilling machines~~ ~~for oil-drilling~~ pieces of oil-drilling equipment is to be delivered by October 1952. The following enterprises are participating in the production of these orders for castings: Gilwitz, Frankleben Steel ~~Plant~~ Factory, and Otto-Gruson's own foundry.

oil-

Frankleben received orders for the following castings for/drilling equipment:

Quantity (tons)	Item	Type of Material	Weight per unit (in tons)
20	Housings	Steel casting 52.81	2.9
20	Disk bushings [?]	Steel casting 52.81	1.3
40	Insert half rings (Einsatz- haelften)	Silicon manganese steel casting 65.81	0.175
40	Lining half rings (Futter- haelften)	Silicon manganese steel casting 65.81	0.825
40	Lining half rings	Silicon manganese steel casting 65.81	0.070
40	Lining half rings	Silicon manganese steel casting 65.81	0.070
20	Caps	Steel casting 52.81	0.200
20	Bevel gears	Silicon manganese steel casting 70/81	0.460
20	Axle bushings	Steel casting 52.81	0.266
20	Clamping bands	Steel casting 52.81	0.200
20	Locking bands	Steel casting 52.81	0.010

The Frankleben order amounts to about 150 tons. The first two sets of equipment were to be delivered in February 1952.
